

Multi-Lingual Checks TM8 3.0

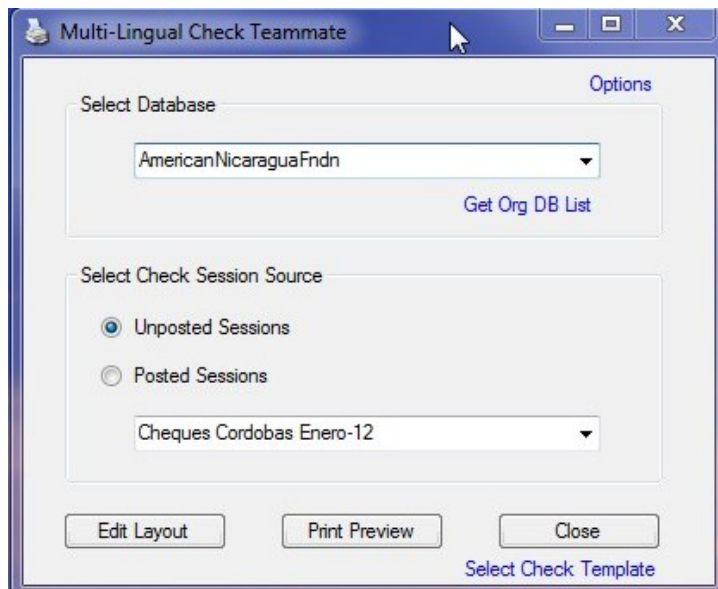

Get a local language word picture for the amounts on your Abila MIP Fund Accounting checks.

Multi-Lingual Checks Teammate is a complete solution that saves you time and increases the value of your investment in MIP's Multi-Currency Module.

Instead of spending hours after every check run to manually type checks your bank will accept, print them in minutes! Edit the layout to change the English wording of the column titles and other text on the check and stubs. Save different layouts for different banks and choose any of them at run time. Spanish, French, and English are currently supported. Ask about other languages, too.

Works with any number of accounts in any number of MIP Organization Databases. Print the amounts for your functional currency or foreign currency.
