

Timesheet Teammate 3.5

Distribute timesheet entry task to eliminate that processing bottleneck with your payroll production!

-  Do you find that the burden of timesheet entry on one or two people in the accounting office is an obstacle to the timely production of your payrolls?
-  Is the cost of additional seats deterring you from employing more users in the task of entering those Time Sheets?
-  Are you funded with time-dependent money and find it a great challenge to charge your salaries properly when the grants end in the middle of a pay period?
-  Do you need to collect your timesheet data at locations distant from your central office and the MIP database?
-  Would you prefer to charge your earnings directly to the segment codes in Fund Accounting rather than maintaining Distribution Codes?

Timesheet TM8 is your answer!

Increase Your Accountability and Efficiency!

-  Timesheet TM8 offers a very friendly data entry environment with drop down lists for all your payroll and fund accounting codes insuring accuracy and speed.
-  Each line item on your timesheets has its own date, so work charged will always be recorded in the proper accounting period in MIP, even for Bi-Weekly Processors!
-  You can track data that isn't carried into MIP to help with special reporting needs (e.g., location and nature of services rendered by employees)
